### **DETAILED ACTION**

1. This Office Action is the answer to the Amendment filed on September 18, 2009, which paper has been placed of record in the file.
2. Claims 1-4, 6-8, 12, 13, 48, and 49 are pending in this application.

### ***Response to Arguments/Amendment***

3. Applicant's arguments with respect to claims 1-4, 6-8, 12, 13, 48, and 49 have been considered but are moot in view of new grounds of rejection.
4. Applicant's amendment necessitated the new grounds of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.

***Claim Rejections - 35 USC § 112***

5. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

6. Claims 12 and 13 are rejected under 35 U.S.C. 112, first paragraph, because the claims recite “a single means” (“a check verifier”). A single means claim, i.e., where a means recitation does not appear in combination with another recited element of means, is subject to an undue breadth rejection under 35 U.S.C. 112, first paragraph. In re Hyatt, 708 F.2d 712, 714-715, 218 USPQ 195, 197 (Fed. Cir. 1983) (A single means claim which covered every conceivable means for achieving the stated purpose was held nonenabling for the scope of the claim because the specification disclosed at most only those means known to the inventor.). When claims depend on a recited property, a fact situation comparable to Hyatt is possible, where the claim covers every conceivable structure (means) for achieving the stated property (result) while the specification discloses at most only those known to the inventor.

***Claim Rejections - 35 USC § 103***

7. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

8. Claims 12 and 13 are rejected under 35 U.S.C. 103(a) as being unpatentable over Hayosh, U.S. Patent No. 6,611,598.

Regarding to claims 12 and 13, Hayosh discloses a check verification system comprising:

a check verifier adapted to verify checks...

Examiner submits that the claimed invention recites an intended use, although Hayosh fails to discuss the intended use which is *to verify the hash value containing in the MICR line of a check*, Hayosh's computer system is capable of verifying the hash value containing in the MICR line of a check. Therefore, it would have been obvious to one with ordinary skill in the art at the time the invention was made to modify Hayosh's to include the feature above for the purpose of enhancing the security in processing a check.

"The recitation of a new intended use for an old product does not make a claim to that old product patentable." *In re Schreiber*, 44 USPQ2d 1429 (Fed. Cir. 1997).

Examiner Note: To avoid the intended use in the claim language, the claims should be amended to delete the phrases "adapted to" and "configured to", for example: a check verifier verifying checks, etc...

#### ***Allowable Subject Matter***

9. Claims 1-4, 6-8, 48, and 49 are allowed over the prior arts cited of record.

***Conclusion***

10. Claims **1-4, 6-8, 48, and 49** are allowed.

Claims **12 and 13** are rejected.
